More Three-Generation Grads

SPACE is at such a premium that the editor's "page" is considerably less than a page, sharing the space with the important feature "University and Alumni Events."

We have room only to comment briefly here on a couple of matters which deserve articles of their own, or, at least, further comment.

Firstly, we'd like to acknowledge a letter from a graduate reporting three generations of living Manitoba graduates in his family, a record matching that of the Pitblados and the Saundersons, mentioned in the story in the last issue. William Aldridge, retired Winnipeg City Engineer, points out that he graduated with a B.A. in 1900. His daughter, Florence, now Mrs. F. J. Ison, received her B.A. in 1927. Also graduates are his grand-daughters, Rosemary Ison, now Mrs. Bruce Wallace (BA/52, BPed/53) and Doreen Ison, now Mrs. Harry Riedmueller (BA/53, BPed/54). Mrs. Ison and her two daughters are all teaching in EastKildonan schools.

We have information, too, on several families of three generations of graduates where, unfortunately, the first generation graduates are no longer living. One illustrious case is that of the late Mr. Justice H.

A. Bergman, who received his law degree in 1908. His daughter, Ethel, Mrs. J. T. V. May, received her B.A. in 1929, and his grand-daughter Barbara May (Mrs. Dennis B. Sigurdson) received her B.A. in 1957.

The late Mrs. C. W. Gordon (wife of Rev. C. W. Gordon, whose pen name was Ralph Connor) was a graduate, now succeeded by two more generations of graduates. Another case is that of the late Dr. W. Chestnut, MD/98, whose daughter Helen, also a graduate, married Orde Davis, a graduate and son of George Davis (LLB/02). The Davis family has two graduate daughters. Perhaps these family stories will provide another article of interest for a future Journal.

THERE are two byline stories in this issue of the Journal. The article on overseas students is by Marcia Dilley, an undergraduate, who came to the University this year after newspaper experience at the Lakehead; the article on A New Cereal Grain is by John G. Gordon (not to be confused with John M. Gordon, executive director of the Alumni Association). John G., elder son of John M., graduated with his B.A. in 1960, has completed his pre-master's year and is now taking a year off from studies to work at the Winnipeg Free Press.

Alumni and University Events

- November 2-11—**FESTIVAL OF THE ARTS**, University of Manitoba, Fort Garry. Guest speakers: Professor A. J. Ayer, New College, Oxford; Professor Gerard Bissette, Queen's University, Kingston.
- November 24—Fall Reception, **Ottawa Branch**, Alumni Association, at the Cercle Universitaire d'Ottawa, 453 Laurier Avenue, 8.15 p.m.
- December 1—Fall Reception, **Montreal Branch**, Alumni Association, at the Social Centre, University of Montreal, 8 p.m.
- December 2—**GREY CUP PARTY**, **Toronto Branch**, Alumni Association, in the Ontario Room, Lord Simcoe hotel, Toronto, from 8 to 11.30 p.m.
- December 9—**THIRD ALUMNI CONFERENCE**, sponsored by the Alumni Association, at the University of Manitoba. Topic: "Britain, Canada and the Common Market." Opening address at 9.30 a.m. in the Residence Auditorium, by Professor H. E. English, Economics department, Carleton University, Ottawa.
- December 16 and 18—**Exhibition basketball** between the University of Toronto and the University of Manitoba, in the East Gym, UMSU building, both at 8.15 p.m.
- December 21 and 22—**Exhibition hockey**, University of Manitoba vs. University of Toronto, Winnipeg Arena. December 21 at 8 p.m. / December 22 at 3 p.m.
- January 15 and 17—**19th Annual Bonspiel**, Alumni Association of the University of Manitoba. Women's rinks and mixed rinks welcome—one point allowed for each lady.
- January 31—**Exhibition basketball**—Peru National Olympic team vs. University of Manitoba, East Gym, UMSU building, 8 p.m. Watch for confirmation of this date.

EDUCATION IS FOR LIFE

In the belief that the question of educational standards is one of the most vital facing us today, and in the further belief that the process of learning extends through a lifetime, *Sun Life Assurance Company of Canada*, in its Values in Education series, is offering leaflets ranging from 'Why Stay in School?' to 'Adult Education Today'. For the teen-ager planning his advanced education, for example, there are four leaflets that could prove of interest — 'The Value of a College Education', 'So You're Going to College', 'Why Study the Humanities?' and 'Scholarships and Bursaries.'

The leaflets extend beyond the realm of formal education. 'How to Get More Fun out of School' and 'Sports-Tips for Teen-Agers' should appeal to the youngsters. 'Fit! Fat! Fad!' stresses the importance of physical fitness for the 12-20 age group and suggests various exercises to help them attain this ideal. For those who wish to make the most of their retirement years, 'Educating Yourself for Retirement' and 'New Horizons for Leisure Time' should prove helpful.

All these leaflets and others in the series are offered free of charge and without obligation. Bulk supplies are available for schools and other organizations. For a complete set, write: *Sun Life of Canada, Values in Education, Sun Life Building, Montreal.*

Number of Overseas Students Increase Year by Year

EAST MEETS WEST

By Marcia Dilley

LIKE a tree whose shade spreads over a larger area as it matures, the University of Manitoba extends its influence over a widening area of the world with each passing year.

For the visitor to the burgeoning campus this fact comes home with force, as one sees the large number of overseas students who have chosen Manitoba for their advanced education.

But when one realizes the crying need in many areas of the world for trained technicians, doctors, nurses, scientists and agriculturists, then the influx of overseas students to the university is not as unusual as it would at first appear.

Before World War II, one seldom saw a foreign student on the Manitoba campus, but immediately following the war overseas students began to come in increasing

numbers. Now they make up a substantial portion of the annual registration.

With the introduction of foreign aid, Canada has given the foreign student a greater opportunity to study in this country. The Colombo Plan and the Commonwealth Scholarship Plan have also contributed to the influx of overseas students.

Traditionally within the Commonwealth, overseas students have gone to the United Kingdom. But after the war a limit was found to the capacity of the British Universities. At one point it was noted that a registration of 120,000 students in British universities included about 14,000 overseas students.

With the facilities strained in the United Kingdom, the overseas students have turned to the other countries of the Commonwealth for their advanced education. Quite a number turned to the United States also, but there, too, they found accommodation limited. This is also evidenced by the

ON MANITOBA CAMPUS

small but constant number of U.S. students who also seek training in Manitoba.

THIS year's registration figures are not yet final, but the Registrar, Douglas Chevrier, has said that registration forms completed indicated an increase in the total student body—part and full-time—of about eight per cent to nearly 9,000 undergraduates. Last year there were 325 overseas students among the 6,700 total of full-time students registered. Mr. Chevrier sees an increase in overseas students again this year, a trend which he expects will continue until those countries from which these students come have enlarged their own educational facilities.

As in the past, it is expected that once again this year the largest body of overseas students will come from the West Indies. Of an overseas registration of 291 in 1959, a total of 176 came from the West Indies, 64 from Hong Kong and eight from India. The number of students from these three

areas has increased in proportion to the growth in enrolment at the university.

And although there has been no "explosion" of registrations from any one country of the world, it has been noticed that with each passing year the number of countries represented on the campus become more numerous and diverse. Where in past years there were no students from Iraq, Iran, Jordan and Israel, there are registrations from these countries this year.

The story is told that at one time there was a rather large registration of students from Ethiopia (whose finances were personally guaranteed by His Imperial Majesty). This appeared to be unusual until it was discovered that the Addis Ababa University was almost entirely staffed by Canadians, a large proportion of them graduates of the University of Manitoba.

This year, in addition to the usual large number of students from the West Indies, Hong Kong and India, newcomers have

arrived from Pakistan, Malaya, Borneo, Indonesia, the Philippines, Greece, Iran, Jerusalem, Ceylon, England, Scotland, Germany, Italy, The Netherlands, Iceland, Poland, British Guiana, Ghana, Honduras, Rhodesia and the United Arab Republic, to name only a few.

BUT why do the overseas students single out the University of Manitoba?

The reasons given by the students are almost as varied as the countries they come from. But two stand out. Most have indicated that they find the fees reasonable and the program of courses in line with what they desire to study.

Some students chose this university because it was the first to reply to their requests for information or because, having planned to study in Canada, they wished to choose a central University. Others said that Winnipeg was closer to home or that they had friends attending the University, or in Winnipeg for other reasons, who could help them with their many arrangements.

But even from the most remote countries there are those who have come to Manitoba because they were taught in their schools by Manitoba graduates. Others have indicated that the university was recommended to them because of the widespread reputation of its faculties.

WHEREVER they have come from, they are faced with the same problems that face any student arriving in a foreign land. Problems of housing, employment, transportation and home-sickness that are all mixed in with a desire to do well and make new friends in a strange country.

A very real problem to many of the overseas students is that of a transition from one way of life to another. To the student who comes from a country just beginning to emerge from a tribal status, the adjustment to this more sophisticated society is a great and difficult one.

Another serious problem for the overseas student is that of obtaining summer employment. In most cases students who come from overseas come for the full term of their university education. Trips home at the end of the school year are at times difficult, if not impossible, to arrange and place an undue financial strain on the student's family. So the student comes to Manitoba planning to stay four or more years.

National groups concerned with the problem of the overseas student obtaining summer employment have continued to press the Department of Citizenship and

Immigration to modify regulations to permit the overseas student to take summer employment and thus make the financial burden easier.

Early this year, when pressure was applied to have regulations relaxed somewhat, it was decided that in view of employment prospects for university students generally, a change could not be justified. So this problem is one that remains to be solved although some students are allowed to work in fields in which they are studying.

BUT students need not face their problems alone when they come to the university. A very real aid is given them by the university foreign student advisor, Mrs. F. J. Sharpe, and faculty advisor to foreign students Dr. John M. McEwen of the university history department.

While Mrs. Sharpe swings into action aiding students to find suitable lodgings and to arrange the details of their first weeks, Dr. McEwen helps students to determine which lines of study they would be best advised to study.

For the first few days of his stay at the University the overseas student finds at Mrs. Sharpe's office a place to meet others who also are newcomers to the country. A special place in her office is also put aside for newspapers, booklets and magazines from other countries so that overseas students may keep abreast of developments in their homelands. This year more than 65 foreign students have come to Mrs. Sharpe for aid.

Over the years, Mrs. Sharpe has found many ways in which to make the overseas student feel more comfortable and at home in their new country.

Through an intensive effort at public education in the past few years, her office has brought home to residents of Winnipeg the need for a warm welcome for the overseas students.

Not long after they arrive in Winnipeg the overseas students find that they are being asked to visit the homes of local residents. Social activities are arranged for them within and outside the university, and students find themselves welcome guests as various church organizations and service clubs invite them to visit and talk about their homeland or just socialize and get to know more Winnipeg residents.

And by the time Christmas comes—probably the loneliest time of the year for a stranger—overseas students find that they have acquaintances in their new country, and more often than not these new friends

A group of Hong Kong students with Mrs. F. J. Sharpe, Foreign Students' Social Adviser.

take them into their homes for the festive season.

Civic receptions are also given yearly for the overseas students and service clubs do their bit in welcoming the students by listing members who are interested in entertaining them throughout the year.

In addition to this the students themselves get together in such organizations as the West Indian, African and Chinese students' associations where social activities are organized and even more new friends are made.

BUT all is not socializing and friend-making at the university for the foreign student. Most often the student at the university comes to this country with a higher purpose in mind. That is to gain the greatest possible degree of skill in his field so that he might return to his home to aid his people.

Perhaps this can be best seen at the graduate level where the increase of overseas students over the past 10 years has made its most noticeable advances.

In 1949 there were only 22 graduate students at work at the university. This figure included both Canadian and overseas students. But last year there were over 500 graduate students on the campus and this number included 80 overseas post graduate students.

This year it is expected that there will be 600 or more graduate students when all the registration forms are in. The total will most certainly include a heavy registration of graduates from other countries.

Among those overseas post graduates who have already started their work are such as John K. M. Hodasi of Ghana and Dr. Maria Paraskevas, of Athens, Greece, both of whom are seeking M.Sc. degrees. Seeking similar degrees are Gerardus J. O. Beke of the Netherlands, a graduate of the University of British Columbia, and Zhivoin Nikolich of Uzice, Yugoslavia who obtained his B.Sc. degree at the University of Belgrade in 1955. Among them they do post graduate work in zoology, bacteriology and physics.

Post graduates seeking doctorates of philosophy include John Farley of Leicester, England, zoology major; Manoranjan Ray, Calcutta, who majors in plant sciences; Gideon Avnon, Jerusalem, major in entomology and Collin C. Weir, Kingston, Jamaica, majoring in soil science.

THE influx of overseas students, at both undergraduate and graduate levels, is paralleled by a concentration within the University's staff of teachers from many parts of the world. Britain has long been a source for teachers for Manitoba, as for other universities. Now we find teachers from many parts of the world, including a number from India who have joined the staff in recent years.

New staff members this year include two from South Africa—Professor G. H. Durrant, former head of the English Department at the University of Natal, and Professor B. L. Hijmans, who comes from Capetown to Manitoba's classics department; from Wales comes Professor Graham Hallett, to Agricultural Economics; from Great Britain, Alexander Gordon and Graham Padgett to the French Department; Maurice S. Elliott

to the English Department; from the United States, Professor Don A. Ellis (Architecture), Professor Janice Baumann (Interior Design), Lewis M. Layman and Robin P. Hoople (English); from the Netherlands, Dr. H. J. Boom (Actuarial Mathematics); from India, Professor S. K. Sinha (Statistics) and Miss Manjo Kapoor (a graduate teaching assistant in Botany).

WHAT is the ultimate effect of the foreign student upon the Manitoba campus? For both the Canadian and overseas students the effect is good.

Young Canadians, in mixing with the students from other countries, may find a new understanding of the problems and customs of many countries of the world. As one university official put it: "For the Canadian the presence of foreign students here is an education in itself."

And for the overseas student will come, with his life in Canada, a similar understanding of the problems, customs and way of life of this country, and, it is hoped, a respect and love for this country which he will take back with him to his homeland.

From Ceylon, Don Wilson Kuruppu, recently a "trainee" in Entomology.

A Backward Glance

What Were the Graduates' Objectives In Forming Alumni Body 40 Years Ago?

FORTY years ago, in 1921, "the largest body of exclusively Manitoba University graduates ever gathered together" met and formed themselves into the University of Manitoba Alumni Association.

The Winnipeg Free Press of Friday, May 20, 1921, reported that 500 graduates, at the University of Manitoba Convocation luncheon at the Fort Garry hotel, had formed a special committee of 15 to draft a complete plan and constitution. These were for presentation to the second meeting of the association to be held June 3 in the new lecture theatre in the Science building.

The newspaper story said that the association had been organized largely as the result of the efforts of undergraduates, led by the students' council, and co-operating with graduates. Herbert Andrews, as chairman of the alumni committee appointed by the council for the students' union, had taken the preliminary steps in the formation of the organization.

Assisted by W. J. Spence, the University registrar, the committee had entered into communication with many of the graduates and outlined the scope and objectives of the association. The luncheon was the first step taken by the committee in placing the association on a definite footing. The association included graduates of both University and affiliated colleges.

On June 4, the paper reported that at a meeting on June 3 Miss Eileen Bulman had been elected convener of the Board of Directors of the University of Manitoba

Alumni Society. Major D. M. Duncan had presided at the meeting and members named to the board included: Major A. J. Taunton, E. D. Honeyman, P. Abel, Herbert Andrews, C. J. Bodle, J. T. Beaubien, Lieut.-Col. G. A. Wells, B. C. Parker, Miss Elsie Moore, Dr. F. D. Clarke, Max Steinkopf, Professor R. Fletcher Argue, Dr. W. W. Musgrove and Dr. T. G. Hamilton.

The first president was Dr. T. Glen Hamilton, elected June 10, 1921. In the same year he was president of the Manitoba Medical Association and brought out the first number of the Manitoba Medical Association Bulletin in July 1921. The first treasurer was Max Steinkopf.

On July 16, 1921, the Free Press reported that the University of Manitoba Alumni Association had opened an office in the Arts building. "It will be in charge of George T. McIntosh, a recent graduate."

GEORGE H. Dowker, BA/22 (later Rev. G. H. Dowker of St. George's church and now in Calgary), was author of an article appearing in the Free Press on September 3 and which was headed: "ALUMNI BODY BEING FOUNDED."

Mr. Dowker wrote in part:

"For some considerable time the need of an organized body of graduates in an Alumni Association in Manitoba has been keenly felt, and after much agitation and cogitation the body is now in the process of development. A circular letter setting forth the aims and possibilities of such an organiza-

tion has been sent out to graduates in all parts of Canada and while the process of a successful organization will be slow, it is sincerely hoped the association will be able to muster a nucleus of at least 500 members by the end of September 1921. The membership fee is only a matter of three dollars and includes a subscription to the official alumni publication which in all probability will be 'The Manitoban', a weekly student newspaper.

"It would be impossible in an article of this nature to detail the varied functions which an alumni organization can perform, but its general aims are to foster a friendly spirit among members of the same alma mater and to enable those graduates to exert some influence in the direction of the destiny of that institution which meant so much to them in student days and which, with their help, can perform a valuable service in the community and the nation.

"The present intention of the alumni executive is in a provincial canvass of graduates after September 1 and surely if our university has produced the fine citizens of which we boast they will not fail to respond to this test of their good citizenship."

IN another Free Press article, this on September 10, George T. McIntosh, first secretary of the association, outlined work done by alumni organizations of other universities and proposed a plan of action for the new University of Manitoba Alumni Association.

"The desire to perpetuate college friendships and to revive memories of college days was undoubtedly the underlying cause which first brought the alumni together in these organizations, and not a few associations have progressed no further in their activities," he commented.

Gradually alumni associations began to exert an influence. University boards of governors began to select alumni for the board and soon the alumni were choosing their own representatives. As well, the alumni began to become active in obtaining financial assistance in the form of endowments and alumni funds and often purchased new buildings and equipment. The alumni also "sold" the university to prospective students and increased enrolment.

In the case of state universities, he suggested that the alumni could exert pressure on the government to get adequate financial aid for the institution and to make sure that the governing body was well appointed.

MR. McIntosh then went into the philosophy of an alumni association:

"The purpose of every alumni association should be to substitute organized alumni loyalty for unorganized goodwill and to secure the maximum efficiency for every ounce of alumni effort invested. Here in Manitoba, among the graduates of the local university, there is an abundance of unorganized goodwill. This must be substituted by organized loyalty—and here we have the reason for the formation of the University of Manitoba Alumni Association."

One of the greatest fields for organized effort on the part of any alumni association, wrote Mr. McIntosh, was to become the medium between the university and the alumnus. To act as interpreter, when necessary, keeping alive in the spirit of the busy alumnus the academic love of learning for its own sake, and to bring into the life of the university from the outside world a spirit of progress and efficiency.

First Alumni

THE first president of the University of Manitoba Alumni Association was Dr. T. Glen Hamilton, a Winnipeg surgeon, medical professor and politician, internationally known for his work in psychic research.

Dr. Hamilton was elected president of the association in 1921. In the same year he was president of the Manitoba Medical Association and published the first edition of the Manitoba Medical Association Bulletin.

He graduated from the Manitoba Medical College in 1903 and began a practice in Elmwood after having served a year as an interne at the Winnipeg General Hospital.

He served on the Winnipeg school board and became its chairman, and from 1915 to 1920 he was M.L.A. for Springfield. He took an active part in getting mothers' allowance legislation.

By 1921, when he was elected alumni president, he was on the surgical staff of the Winnipeg General Hospital and was a lecturer in Surgery in the Faculty of Medicine at the University Medical College.

THE most interesting period of Dr. Hamilton's life began a few years earlier, shortly before the end of World War I.

Appalled by the death toll of the war and by the death of his son in the Spanish influenza epidemic which came shortly before

He urged the alumni association to put the university in a proper light before the people of the province, particularly by forming local alumni branches in cities and larger towns in the province.

Concerned by the unemployment of the times following the first world war, Mr. McIntosh suggested an alumni employment bureau. "It is the opinion of many university men that the U. of M. is urgently in need of a bureau of appointments which would concern itself with all graduates and undergraduates who wish assistance in securing employment."

The bureau would also be able to counsel students in the high schools with information on professional and business opportunities for university graduates.

The article also suggested that the alumni might become a channel of information regarding everything relative to the university and university affairs.

THE article concluded: "It may be safely predicted that the voice of the alumni is going to increase in influence in university councils in the future. Even now in universities, what the alumni wish has often become the deciding factor in shaping educational policies. Their support, sometimes financial, sometimes advisory, sometimes political, gives to the alumni a weight which frequently carries over that of the administrative officers and the faculty. There is no reason to believe that this influence will not continue to grow. We all know that the graduates of our institutions have by no means accomplished all that they might for their institutions. To judge by the standards of what has been done by the bodies of alumni in different universities, the possibilities of alumni activity seem almost unlimited."

President Was Dr. T. G. Hamilton

the end of the fighting, Dr. Hamilton became concerned about survival after death.

He began to investigate the problem in 1918 and continued until he died in 1935 at the age of 61.

Dr. Hamilton used the scientific approach he had learned at Medical School to question the psychic phenomena. He tried to avoid all possibility of fraud.

Seances were held in the Hamilton home and the doctor produced what are described as photographs of mediums in the room surrounded by ectoplasm. Tables rose, voices of the deceased spoke out of the dark.

DR. Hamilton wrote many articles on his research and in 1926 he spoke of his work to the Winnipeg Medical Society.

He writes of his address:

"I did not know whether or not I would have a shred of professional prestige left when I was through. As matters turned out, my audience on that occasion doubted neither my sanity nor my sincerity and listened with tolerance and well-balanced scepticism."

Sir Arthur Conan Doyle and Sir Oliver Lodge were among the notables with whom he had correspondence and Sir Arthur once attended a seance with the doctor.

After the doctor's death, his wife and son assembled the material he had prepared and it appeared in book form in 1942, printed by the Macmillan Company of Canada. The book was titled "Intention and Survival—Psychical Research Studies and the Bearing of Intentional Actions by Trance Personalities on the Problem of Human Survival."

The Winnipeg Free Press reports in the doctor's obituary that among the conclusions he reached from his study was the one that there was certainly a life after death.

Alumni Fund Goes Over

Amount Raised — Over \$12,000

Number of Donors — More Than 1,000

Students Given Assistance — 65

THIS has been a year of achievement for the Alumni Association's "Search for Talent" program.

In July, as reported in the last Journal, the program was honored with an international special service award by the American Alumni Council. This was judged to be a well-conceived program of service to higher education, to Alma Mater and to the young people who will give leadership in years to come.

In early September, the association turned over to the University of Manitoba \$11,500 to be awarded in bursaries and scholarships.

In late September, the campaign for funds passed the \$12,000 objective, setting a new record in the five year history of the program. Funds not disbursed this year will be carried over for the fund in 1962.

The Alumni Fund this year provided assistance to 65 students entering the university and affiliated colleges. Numbers assisted in previous years were: 1957—12, 1958—33, 1959—46, 1960—47.

THE 1961 Search for Talent began early in the year with the writing of letters to high school principals, asking for names and records of their outstanding students who were expected to become eligible for university entrance this year. In all, the names of 1,793 students were reported to the alumni office. All of these students were sent kits of information about the University and the Colleges, with letters to stimulate their interest in a higher education.

More than 100 alumni throughout the province participated in the next step, the interviewing of 868 students whose records indicated the greatest promise. Of these, it was discovered that 292 were proceeding

from Grade 11 to Grade 12; 97 intended to continue their education in other directions—nursing, business college, etc.; 182 intended to proceed to University and could do so without financial aid; 180 of those interviewed (and 33 who had not been interviewed) made application for bursaries; 117 others said they intended to apply but did not.

As in previous years, the Alumni Office then brought together each student application with the interview, ascertained the mark in the June departmental examination, then listed the students according to their academic achievements and declared needs. The Association's Education Committee then studied the lists, the individual applications and the interviews and on the basis of all three made recommendations for bursaries to the amount of funds available at that time (approximately \$9,000) to the University's awards committee. The committee acted on these recommendations, changing awards only where other awards had previously been made from other sources. Some of those on the list who did not receive alumni awards and who had not applied elsewhere were added to the university's own awards list. In other words, aid was given insofar as it was available. While need was, by definition, the first qualification for a bursary, academic marks were the determining factor where need was equal as between one student and another.

LAURELS for leadership in the program should go this year to Inspector M. Ewanchuk, chairman of the Education committee, to James W. Burns, chairman of the Alumni Fund committee, and to Mrs. Alice Lawrence of the Alumni Office, whose work through many months in collecting informa-

The Top in a Record Year

tion, obtaining and assisting interviewers and in collecting and compiling information for the Education committee was much more than a day to day task. It was a labor of love, carried out with sympathy and understanding for every student applying for assistance.

Mr. Ewanchuk and his committee carried out smoothly and quietly a vast undertaking. Another success for this committee in recent months was the excellent reception held for recipients of Alumni bursaries and scholarships within the last two years.

Mr. Burns and his helpers carried out an imaginative and obviously effective program in raising the funds. The first mailing, an attractive brochure "An Adventure in Creative Giving" was followed up with a postcard reminder, with a "light touch" (if we may be forgiven the expression) and finally a limited mailing reprinting newspaper reports and comment on the American Alumni Council award to the Search for Talent program. A notable result of the campaign, probably quite as significant as the amount raised, was the increase in the number of Fund donors from the previous record of 850 in 1959 to 1,018 in six months of this year. Average 1961 gift to the fund, at writing, was \$12.05.

THE students winning awards have chosen a variety of courses, with the largest group going into Arts and Science, the second largest into Engineering. Of the 40 bursary students, 15 signified an intention to study at one of the affiliated colleges.

The successful students are almost evenly divided between schools of Metropolitan Winnipeg and other Manitoba—31 Winnipeg, 34 others. Counting both bursary and scholarship winners, schools with more than one student award are: Gordon Bell High School, Winnipeg, 5; Hapnot Collegiate, Flin Flon, 4; Sisler High School, Winnipeg, and St. James Collegiate, 3 each; Kelvin High School and St. Mary's Academy, Winnipeg, Elm Creek, Portage la Prairie, Dauphin, Roland and Winkler colleges, 2 each. Other schools represented in the lists, with one student from each, were: Metropolitan Winnipeg—St. John's High School, Churchill, Elmwood, Daniel McIntyre, Charleswood, Nelson McIntyre, Provencher, Vincent Massey, Grant Park, Silver Heights, Miles Macdonell, Mennonite Brethren Collegiate, West Kildonan. Schools outside Winnipeg, with one student from each: Vincent Massey at Brandon, Brandon Collegiate, Carberry, Erickson, Grandview, Graysville, Gretna Mennonite

Collegiate, Killarney, Lunda, Minitonas, Morden, Morris, Oak Point, Oakville, Plum Coulee, Rathwell, Rivers, Souris, Virden, Warren.

SCHOLARSHIP WINNERS

The 25 scholarships went to the top 20 Grade 11 graduates in the province who had not won Isbister awards and to the top five students writing Grade 12 examinations. Averages of the Grade 12 winners ranged from 87 to 92 per cent, of Grade 11 winners from 84.8 to 88 per cent.

Grade 12 winners, with their high schools in brackets, were:

Glenn William Duncan (Hapnot Collegiate, Flin Flon);
 Edmund Bruce Wanless (Kelvin, Winnipeg);
 Peter Wagschal (St. John's, Winnipeg)—who was unable to accept the scholarship because of another award;
 John Peter Rempel (Hapnot, Flin Flon);
 Colin James Allan (Gordon Bell, Winnipeg);
 Margaret Irene Enns (Gretna Mennonite Collegiate).

Grade 11 winners, with their high schools in brackets, were:

Manuel Matas (Grant Park, Winnipeg);
 David Alexander Hamilton (Kelvin);
 Marguerite Louise Cowtun (St. Mary's Academy, Winnipeg);
 Anastasia Zenovia Shkilnyk (Sisler, Winnipeg);
 Carol Sharon Litwin (West Kildonan Collegiate);
 Mary Lynn Hollier (St. James Collegiate);

Dawne Christine MacDonald (St. Mary's Academy);
 John Allen Farewell (Vincent Massey Collegiate, Fort Garry);
 Werner John Becker (Warren);
 Alliece Lynn Graham (Silver Heights);
 Linda Jean McLaren (Roland);
 Lorna Ellen Sigurdson (Oak Point);
 Donna Margaret Stark (Daniel McIntyre, Winnipeg);
 Verne Gudjon Johnson (Lunda);
 Lois Anne Wilton (Roland);
 Helen Ann Feir (St. James Collegiate);
 Stanley Phillip Moroz (Miles Macdonell, East Kildonan);
 Donna Ruth Firby (Erickson);
 Laurence Rodger Ricou (Brandon Collegiate);
 Wayne James Watt (Graysville).

BURSARY WINNERS

This year's bursary winners, all but two from Grade 12, are listed here, with the name of their high school and of the course they announced an intention to follow:

Alexandra Lubov Grenkiw (Sisler, Winnipeg) Science, University;
 Marilyn Patricia Boyd (Gordon Bell, Winnipeg) Arts, St. John's;
 Anita Kathleen Ross (Gordon Bell) Arts, University;
 Kenneth C. C. Stein (Vincent Massey, Fort Garry), Engineering;
 Leonard John Kolada (St. John's High School, Winnipeg) Engineering;
 Cynthia Lucy Trevenen (Gordon Bell) Science, United;
 Robert Leslie Brooks (St. John's) Science, University;

William Reid Fumerton (Elm Creek) Engineering;
 Heather Elaine Cann (Elmwood) Arts, United;
 Donald John Peters (Portage la Prairie) Science, United;
 Thomas Lorne Penner (Plum Coulee) Engineering;
 Linda Marie Friesen (Morden) Home Economics;
 Brian Bertie Leighton (Nelson McIntyre, Norwood) Commerce;
 Marion Eileen Brown (Churchill, Winnipeg) Arts, United;
 William John Donaldson (Hapnot, Flin Flon) Pre-Med., University;
 Kenneth Robert Havard (Elm Creek) Engineering;
 Harvey Dale Pettapiece (Rivers) Engineering;
 Frances Jean Mitchell (Carberry) Arts, United;
 Jerry Daniel Ilavsky (Minitonas) Science, University;
 Charles Joseph Pavlin (Dauphin) Science, University;
 Lynnette Louise Lusk (Gordon Bell) Arts, United;
 Ronald Carlyle Monson (Hapnot, Flin Flon) Pre-Med., University;
 William John Osask (St. James) Engineering;

Peter Tiessen (Winkler) Arts, University-Frederick Samson (Vincent Massey, Brandon) Commerce;
 Edward Allan Buhr (Morris) Pharmacy;
 Robert Joseph Mousseau (Provencher, St. Boniface) Science, University;
 Linda Myrtle Penny (Souris) Interior Design;
 Marilyn Rachel Asplin (Portage la Prairie) Science, United;
 Stan Edward Botterill (Oakville) Engineering;
 Sharon-Rose King (Dauphin) Arts, University;
 Jacob Klassen (Mennonite Brethren Collegiate, Winnipeg) Arts, United;
 Gail Kearsley Taylor (Charleswood) Arts, St. John's;
 Margaret Eleanor Lockhart (Virden) Science, Brandon;
 Donna Constance Warren (Killarney) Arts, St. John's;
 Marilyn Elizabeth Bobby (Grade 11, West Kildonan) Home Economics;
 Rodney William R. Ambrose (Grade 11, Rathwell) Science, St. John's;
 George Ronald Brown (Winkler) Science, St. John's;
 Heidi Hilda Meier (Grandview) Arts, United;
 Howard Gordon Smith (Sisler, Winnipeg) Arts, University.

President Says "Thank You" to the Alumni

President Saunderson has written the following letter to your Executive Director:

"I wish to thank the members of the Alumni Association for your recent and most generous cheque in the amount of \$9,000, which has been given to provide bursary assistance to students entering the University or one of the Affiliated Colleges this year. We have also received from you a cheque for \$2,500 to cover your scholarships to Grade 11 and Grade 12 students.

"This is the fifth year that I have had the pleasure of thanking the Alumni Association for their splendid and growing program in the field of scholarships and bursaries. Recently the program has been singled out for recognition by the American Alumni Council, and this has attracted favorable attention to it in the local newspapers. To this gratifying response I wish to add the appreciation of the University as a whole for the valuable service your awards are performing. The scholarships are re-

warding those whose achievement in their studies is of the highest distinction. The recipients of the bursaries have likewise attained excellent results. No bursary was given to a student whose average was less than 72 in Grade 12 and most of the recipients had averages in the 80's, the highest being 86.3. Aid given through bursaries to students such as these is certainly a good investment, and indeed it would be a loss if such students were unable to pursue education because of financial difficulties. Some 40 students received your bursaries this year. I know that all of them will be keenly appreciative of the generosity of your Association.

"I would appreciate it if you would convey to all those members of the Alumni Association who contributed, our warm thanks. A special word should go, too, to the members of the Education Committee, and those who assisted them. Their task, we hope, was pleasant, but we know it was not easy."

Dean of Women Retires

MISS MACKAY
Dean of Women, 1944-61

MISS HUNTINGFORD
Takes On a New Task

MARJORIE E. Mackay, who as Dean of Women had given wise and sympathetic counsel to hundreds of girls since her appointment in 1944, retired recently, to be succeeded by Audrey Huntingford, BA/59, BEd/60.

Miss Mackay always counselled young women to interest themselves in sports and student activities—but not too many—as well as their studies. She was herself a most energetic student at Manitoba, playing on the basketball team, holding various executive positions including that of Lady Stick of Arts, winning scholarships in each of her years and three gold medals in her year of graduation, 1917.

She worked for a year and a half in the University library, then studied music and pedagogy in New York for three years. She returned to teach in Riverbend school. In 1929 she went to Paris for further music studies, then in 1933 to New York. She taught music in Toronto, Detroit and then in Winnipeg until her appointment as dean in 1944.

She has found time for many activities in the community in addition to her demanding duties as Dean of Women, including executive service to the Canadian Federation of University Women's clubs.

The best wishes of hundreds of students whose lives she has touched will go with Miss Mackay on her retirement.

MISS Huntingford assumed the office on September 1. Miss Huntingford, English born, came to Canada in 1948 to visit her sister in Kenora. She had intended to stay only a year but soon decided that her future lay in Canada.

After five years of secretarial work in Kenora she decided to come to college. She enrolled in United, worked in summers with the Children's Aid and as summer dean at the college. In her last year she was lady stick and by graduation time she was a don and assistant to the dean of women at United.

She enjoyed the work and was able to do more of the same—as dean of the women's residence and part-time dean of women at St. John's College. Then she enrolled in Education at the University, taught for a year in Fort Garry—and now she is back at the University again to assist other young women in their quest for education.

Pharmacy's New Building

On a sunny spring morning, June 22, of this year, the first sod was turned of the new Pharmacy building. Representatives of Pharmaceutical associations, of the trade, of the University faculty and administration were present. Dr. Saunderson spoke briefly, as did Hon. Stewart Maclean, Minister of Education, who is seen at left as he operated the power machine which dug up the first scoop of earth. The building, located between the new Allan Physics laboratory building and the old "Physics and Chemistry building" (which now houses Geology) is due for completion by the Fall of 1962, at a total cost of about \$850,000. A model of the building, designed by Blankstein, Coop, Gillmor and Hanna, is shown above.

A NEW CEREAL G

Plant Science Researchers Develop High-Yielding Rye, Wheat Cross

By JOHN G. GORDON

SCIENTISTS at the University of Manitoba are testing what may be the first commercial cereal grain ever developed synthetically.

At the moment they are trying to improve the hybrid which is the result of a cross between a durum type wheat and rye.

So far tests of the hybrid have been satisfactory, but it will be several years before it is known whether or not it will be of commercial value.

The original work was carried out by the Rosner Chair at the University under the direction of research professor B. C. Jenkins, but much of the work is now being financed by the provincial government.

The Samuel Rosner Research Chair in Agronomy was established in 1954 by an endowment by the Bronfman family foundation in honor of Samuel Rosner, a pioneer Manitoba farmer.

The hybrid is only one of several projects underway at the centre, but it has attracted the most outside attention.

The cross was made by scientists who wished to develop a hardier, more productive, type of cereal grain. They believed, and it has since been proved, that common bread wheat is the result of a natural cross between an early type of durum wheat and a short hardy grass called "goat grass."

THE scientists believed that the goat-grass component in the bread wheat had

a depressing effect on the yield, and believed that by crossing the durum type wheat with a higher yielding hardy plant such as rye instead they could increase yields significantly.

Unfortunately, because of chromosome differences, a wheat-rye hybrid would normally be sterile.

Several wheat-rye crosses were attempted in the late 1800s using cold or some other shock in an attempt to get the chromosomes to double and so form a fertile hybrid, but they were not too successful.

When the chromosomes are not doubled, the resulting plant is comparable to the mule, the sterile result of a cross between a donkey and a horse.

The chromosomes are the agents in the cell which carry the hereditary factors.

If a reproductive cell does not have chromosomes in pairs, when it splits into two cells during growth, each cell will have different chromosomes, and the propagation will end there.

Each normal reproductive cell has paired chromosomes and upon cell division one set goes into each new cell.

In the normal cross between wheat and rye, only one set of chromosomes is present in the reproductive cells and reproduction is impossible.

BUT, in 1937, it was found that the drug colchicine, if applied to the plant at the right time, enables the chromosomes to double in a cell, and any plant developing

GRAIN

At Right, John Welsh, formerly with the Canadian Agriculture Department Research lab in Winnipeg and now in charge of the new species "improvement plan" admires a crop of the rye-wheat hybrid, grown on a farm at Darlingford, Manitoba.

from that cell should be fertile. With the aid of this drug it is now possible to develop many new species.

Several new species have been synthesized at the University of Manitoba and at research centres in Canada and other countries, but so far this hybrid seems to have the greatest potential commercial value. Much of the work done by other centres was used by the University in initiating its project.

The University has now set up another new lab with milling and baking facilities as well as facilities for testing dough and bread to evaluate their new hybrids.

"We couldn't continue profitably without them," Prof. Len Siemens said of the new baking and testing labs.

The labs contain a small flour mill, dough mixer, ovens and rising bins for the bread. It is a miniature bakery designed to reproduce conditions encountered in a commercial bakery.

A lab next door to the bakery contains instruments for measuring the gluten content of the dough, its stretchiness and other important qualities.

Growing tests of rejected seed samples on a Manitoba farm this year showed the new grain produced an estimated 50 bushels an acre in areas where wheat was averaging 15, oats 25 and barley 20.

THE hybrid was tested as a poultry feed last winter, and will be tested in the new lab at the University this winter for milling

and baking qualities and as an animal feed.

A breakfast food company has 'puffed' a sample of the grain and it may be adaptable as a breakfast food. It is reported to taste much like puffed wheat, but has a "slightly nutty flavor."

A winter grain in the rye-wheat family has also been developed, but it is in an even earlier stage of testing. The winter hybrid could be more important than its spring cousin for there is no commercial winter wheat type grain that can be grown commercially in Manitoba.

So far Manitoba wheat is spring wheat, sown in the spring and harvested in the fall. Winter grain is sown in the fall and begins to grow in the late fall, remaining dormant through the winter and growing again in the spring. It matures and is harvested earlier in the year than the spring grain and can take better advantage of the winter moisture and avoid early fall frosts. Further, with a winter crop, weeds are easier to control and erosion is reduced.

But it will be several years yet before either hybrid is ready to be given to the farmer for testing.

If the baking tests prove satisfactory, then the new grain must be selectively bred. It still matures rather late in the year, although strains have been developed by the University which mature three weeks earlier than the rejected seed grown in the test this year.

"With the ordinary wheat variety it takes

about 13 generations of selective breeding before it is ready for commercial use," Dr. Laurie Evans, a research assistant at the centre said, but he added that seed may be sent to Mexico to speed up the selective breeding program.

THOUGH the centre has great hopes for the grain, "I can't see it replacing wheat as a human food in the near future," Dr. Evans said. The hybrid's greatest potential use will probably be as a highly nutritive competitive crop to barley as a live-stock feed.

Other research at the centre has drawn less publicity, but is just as important.

The centre is carrying on genetic studies to locate specific genes in wheat that may make the plant more resistant to disease, cold weather, etc.

The centre is also working on an experiment in which each of the 21 wheat chromosomes is replaced by one of the seven rye chromosomes. In these tests the scientists hope to eliminate some of the weak chromosomes which make wheat susceptible to rust or reduce yields, and replace them with chromosomes which will make it hardier and higher yielding.

The experiment also enables the scientists to assign to each chromosome its different role.

With the pioneer work being carried out at the University and other centres it is possible that in the future many of man's grain foods will have been scientifically produced to be higher yielding and disease resistant, preventing much of the resource waste which is now taking place.

Obituaries

We regret to announce the death of the following alumni:

Mrs. C. W. Gordon (nee Helen S. King, BA/96), widow of Rev. C. W. Gordon (Ralph Connor), of Winnipeg, in March, 1961.

Jeannine Germaine Beaudry, BA/60, of Sprague, Manitoba, on April 7, 1961.

Mrs. H. B. Freel (nee Dorothy Nichols, BA/19), June 6, 1961 at Stouffville, Ontario, following a lengthy illness.

Harold M. Lynes, Ag/23, farmer and prominent citizen of the Crystal City, Manitoba area, suddenly June 17, 1961 at his home.

Joshua Berinstein, Pharm/18, a well-known druggist of Winnipeg and founder of Manitoba Drugs, on June 29, 1961, at his home following a lengthy illness.

Mrs. H. C. Sweet (nee Hannah Sweet, BA/24), resident of Winnipeg since 1915, on July 6, 1961 in Winnipeg.

Edgar Power Brister, BA/48, BEd/56, vice-principal of Silver Heights Collegiate in Winnipeg, on July 11, 1961 in Winnipeg.

Stewart Richard Speed, BScEE/47, of London, Ontario, suddenly on July 16, 1961 at the age of 36.

Ernest Tennyson Leech, Q.C., BA/01, 85, retired Winnipeg lawyer, on August 19, 1961 in Winnipeg.

Mrs. Lillian Beynon Thomas, BA/05, a champion of women's rights in Manitoba in the early years of the century, in Winnipeg

on September 2, 1961. Mrs. Thomas, also a playwright and short story writer, was first president of Manitoba's Political Equality League in 1912. She was prominent among those who succeeded in gaining the vote for women in the province in 1916—the first in Canada.

Dr. Wesley McCurdy, BA/00, LLD/46, a former publisher of The Winnipeg Tribune, on September 15, 1961 in Victoria, B.C. at the age of 90. Dr. McCurdy retired to Victoria in 1948 after 48 years in the newspaper business.

Graduates who died prior, but those deaths were not reported here at that time:

George W. Archibald, BA/01, an Edmonton lawyer since 1914, in Edmonton, a week before his 88th birthday.

Mrs. R. E. Burrows (nee Kathleen I. Rodgers, BA/35), of Edmonton, Alberta, in Edmonton at the age of 51. Mrs. Burrows, former school teacher and civil servant, was still working with the civil service in Edmonton and very keenly interested in education.

Harry Huebert, BComm/55, of Boonville, Missouri, U.S.A.

Rev. George Fielder, Theo/25, of Victoria, B.C., on November 24, 1960.

A Convocation on Monday, September 18, was doubly significant. It was the second occasion on which the student admission ceremony was given the dignity of a Convocation. At the same time, honor was paid to His Excellency Asgeir Asgeirsson, President of the Republic of Iceland, who received the degree of Doctor of Laws, honoris causa. At right, His Excellency signs the University visitor's book while the Chancellor, Mr. Justice Samuel Freedman, looks on.

On August 31st another Special Convocation had been held at the University, this one in connection with the meeting in Winnipeg of the Canadian Bar association. On that occasion, the honorary Doctor of Laws degree was conferred on four distinguished visitors, shown in the platform picture below. Left to right are: Whitney North Seymour, immediate past president of the American Bar Association; Donald McInnes, Q.C., president at that time of the Canadian Bar association; Bernard Lasserre, distinguished advocate of Paris; Rt. Hon. William Grant, T.D., Q.C., M.P., Lord Advocate, Edinburgh, Scotland.

Five Receive Honorary Degrees

The Chancellor and His Eloquence

WE have mentioned the eloquence of the Chancellor of the University of Manitoba in these pages on previous occasions and we shall now do so once more. It was our pleasure to hear Mr. Justice Samuel Freedman make four speeches within one week recently. In the case of most speakers, this would be an experience to be avoided. When the speaker is Sam Freedman, it is a pleasure worthy of the seeking.

On the evening of Monday, September 18 we heard his message to the freshmen at the University of Manitoba at a Special Convocation (referred to on page 23). Later in the week we motored to the Twin Cities for the organization meeting of the Minnesota branch of the Alumni Association, on September 21 (page 28). The Chancellor spoke at that meeting, again at noon on the 22nd to a Shrine luncheon in St. Paul and, immediately after that, to the freshmen of the University of Minnesota.

No one will be surprised to hear that all four speeches made by the Chancellor that week brought their own special messages, that they were entertaining, informative, inspiring, delivered with humor, with dignity and with rare eloquence. Four times within one week we felt intensely proud that we were a graduate and thus a part of the University of which this man was also a graduate, and now its Chancellor.

These excerpts will give at least some idea of what Mr. Justice Freedman said to his Shrine audience:

"I sometimes think that Canada's position in the Commonwealth is too little understood by our good friends in the United States. The Commonwealth of today is in the fourth stage in a series of evolutions, which began with the founding of the first Colony in Virginia in 1607. The first British Empire was imperialist in character, and it came to a dramatic end in 1776. The second British Empire lasted until 1914. It was characterized by progress in the direction of full Dominion status, attained in domestic affairs, but only partially in foreign affairs. The third British Empire dates from the First World War until the late 1940's. In that period, virtually complete sovereignty on the part of Canada was achieved. The fourth British Empire is the Commonwealth of today, a multi-racial entity that spans the entire globe.

"Canadian development has been influenced by her ties with Britain as well as by her relations with the United States. In recent years, however, there has been a heightened desire for independent Canadian action—an attitude which is part of the larger quest for a distinctive national identity."

And the following words suggest in outline his message to the freshmen:

"You stand at the threshold of a new and challenging experience. When your stay at this great University is ended, what attributes will you have acquired? Many there are that you can attain, but today I will mention five:

"The use of language as an instrument of communication; an awareness of the limits of conformity; a recognition that life has its lighter side; an understanding of the dignity of the human personality; and a determination to pursue high aims and standards at all times.

"My wish for you is that your pilgrimage will be crowned with glory."

MINNESOTA with 30,000 students and Manitoba with nearly 7,500 must both worry about breaking great numbers into small groups, so that each student may have the opportunity of some personal contact with his teachers, may perhaps come close enough to a scholarly mind to have sparked within him the fire of the quest for truth and knowledge.

In Manitoba, certainly, the problem is causing great concern and that is good. Within a few months, for instance, it is hoped that work may start on the Arts college, a University college to accommodate 750 students, 250 of them in residence. This college is planned with the feeling that the expanding Arts and Science faculty should not be allowed to expand to such an extent that the student becomes a number rather than a person.

Graduates would be interested, we feel, in the table below, showing the current registration (and last year's in parentheses) in the University's various faculties and in the colleges:

Arts and Science:			
University.....	2021	(1922)	
United college.....	1201	(973)	

St. John's college.....	276	(240)
St. Paul's college.....	450	(397)
St. Boniface college.....	132	(126)
Brandon college.....	293	(262)
Total Arts and Science.....	4373	(3920)

St. John's College.....	2	(...)
Law.....	13	(24)
Total Graduate Studies.....	515	(407)
Law.....	118	(100)

A recapitulation shows 4,949 students in the University faculties (as against 4,572 last year) and 2,508 in the colleges (as against 2,133 last year). By another division, we find nearly 5,000 students this year on the Fort Garry campus in University

faculties and at St. Paul's and St. John's colleges; about 1,800 at the downtown faculties and at United college and the Law school; 132 in St. Boniface; 316 at Brandon.

MORE students, as we've said before, mean more buildings and, as usual, there is work going on in many places around the University and its colleges. The \$2,400,000 Animal Science building is due for occupancy early in the new year. Pharmacy (\$850,000) due for completion for lectures next Fall; a \$250,000 third-floor addition to the Medical buildings is due for completion in the Spring of '62; nearly a million dollars in remodelling is going on in the "old" Science building (1932 vintage) and the older (1912) Physics and Chemistry building; tenders have been called for the new Education building, which is expected to cost around \$700,000 and be ready for classes in the Fall of 1962; sketch plans have been made for a new women's residence and it's hoped a start will be made next Spring; plans also underway for a new Arts College.

There's one more major job, most of it going underground, and that is the cyclotron. It is under the Science parking lot, is to be ready for use by the researchers some time next summer (it is hoped) and will cost in the neighborhood of \$600,000. The picture below gives some idea of the size of the underground room housing the machine (in far corner). Facing the camera, in the foreground, is Dr. K. G. Standing, associate professor of Physics. J.M.G.

The Middle Aisle

We are pleased to announce the following weddings:

Jean Marie Hannah, BA/56, to Dr. Hugh David McIntosh, MD/58, in Brandon, Manitoba, on June 2.

Beverley Joan Anderson, BAHons/58, to Stanley R. Kent, on June 3.

Margaret Elizabeth Morran, BScHE/60, to Edward Maley Elliott, BScME/58, in Winnipeg, on June 16.

Diane Clark Davis, BScHE/60, to David Edward Cross, BScME/61, in Winnipeg, on June 17.

Sharon A. Niznick, BScHE/61, to Dr. Asher Barry N. Thompson, MD/60, on June 18.

Cynthia Gladys Lynne Cartwright to Paul John Campbell McCrea, BA/58, in Winnipeg, on June 24.

Helen Elizabeth Swan, BA/60 BSW/61, to Keith Fenwick Black, BA/60, in Winnipeg, on June 24.

Barbara Enid Jean McIntyre, BA/61, to Thomas Merrett Carlyle, BSc/61 Ed/61, in Winnipeg, on June 24.

Donna Marie Baydack, BScHons/60, to Nickolas Andrew Bobey, BScEE/59, in Winnipeg, on June 24.

Marcia Elaine Feldman of Munster, Indiana, to Jack Gordon Cohan, AMM/56 BA/59 LMM/60, in Winnipeg, on June 25.

Gail Elizabeth Thomson, BScHE/61, to Robert Francis Wallace, in Winnipeg, on June 28.

Rhonda Cruickshank, BA/60, to Gordon Grist, BID/61, in Winnipeg, on July 1.

Lydia Loewen, BScHE/57 BPed/58, to Dr. Clarence H. Labun, MD/60, in Winnipeg, on July 8.

Mrs. Edith Irene Paton (nee Ireland, Dip. ID/41), to John Edward Lewis, in Winnipeg, on July 15.

Carol Lynn Gilbank to Leonard H. Pakulak, BScME/58, in Winnipeg, on July 15.

Yvonne Parkinson, BA/52, to George E. Levesque, in Winnipeg, on July 15.

Christine Bonnie Johnson to Harold Elroy Wilson, BScME/60, in Winnipeg, on July 15.

Mary Ellen Colleen McCann, BA/60, to Eugene Harry Kristalovich, BA/55 BPed/59, in Winnipeg, on July 22.

Betty Rose Aitken to Clifford Stephen Lecuyer, BComm/53 CA/57, in Winnipeg, on July 27.

Frances Murray Macfarland, BA/56, to Dr. Alastair Harris Imrie, in Scotland, on July 28.

Carol Joyce Kvamme to Kenneth Walter Spencer, BScCE/60, in Kisbey, Saskatchewan, on July 29.

Norma Olive Johnson, BA/56 BPed/57 BEd/60, to Peter Drosdowech, BA/50 BPed/55 BEd/57, in Winnipeg, on July 29.

Donna Margaret Hodgson to Brian Kenneth Laxdal, BScME/59, in Selkirk, Manitoba, on July 29.

Alice Bilenky to Dr. John Antoniwi, BSc/50 MD/55, in Winnipeg, on July 29.

Evelyn Gale Smith to Edward Ronald Pentland, BScCE/61, in Winnipeg, on August 5.

Heather Elizabeth Reid to Douglas G. McEwen, BA/61, in Winnipeg, on August 5.

Marilyn Johnson to Roderick John Thomson Murray, BPed/55 BA/57, in Winnipeg, on August 5.

Judith Alyne Robson to James Alexander Cran, BScCE/61, in Winnipeg, on August 5.

Margaret Elizabeth Gibson to Robert Fox-Decent, BA/59, in Hamilton, Ontario, on August 12.

Audrey Kriese, BScHE/59, to Thomas Arnstorf of Philadelphia, in Winnipeg, on August 12.

Shirley Barbara Parkes to Lawrence Alexander Citulec, BScEE/61, in Winnipeg, on August 12.

Terry Lynne Sylvester to Terry John Jewell, BA/59, in Winnipeg, on August 19.

Cecilia Lonergan, BScHE/60, to David Humphreys, in Winnipeg, on August 19.

Norma Evelyn Walld to Ramon Clifford Burron, Ed/61, in Winnipeg, on August 19.

Margaret Anne MacLeod, BScHE/61, to James Edward Foran, BA/58, in Winnipeg, on August 19.

Fiona Crawford Purdie of Plymouth, England, to Donald Robert Flook, BSA/59, in Edmonton, on August 26.

Shelagh Margaret Reid, BA/61, to William Johnstone Wilson, in Winnipeg, on August 26.

Jo-Ann Elizabeth Robertson, BScHE/60, to Alfred James McCabe, BScCE/61, in Winnipeg, on August 26.

Carole-Yvonne Smith, BSc/59, to Morley Glenn Handford, BSA/59, in Manitou, Manitoba, on August 26.

Genevieve Wilma Hardy, BA/56 BPed/57, to Kenneth William Armstrong, BScHons/57 MSc/61, in Winnipeg, on August 26.

Elsie Mossman to Donald Onysko, BScCE/57, in Saskatoon, Saskatchewan, on August 26.

Eleanor Sigrun Johannson, BA/60 BSW/61, to William Glenn Fry, in Winnipeg, on August 26.

Janet M. Gresenz to William Harold Phillips, BCommHons/53, in Appleton, Wisconsin, on August 26.

Wilena June McCullagh, AMM/54 BA/56, to Kenneth Brown, in Winnipeg, on August 29.

Kathleen Gail Greene, BA/59 BSW/60, to Rudy Corny Isaak, BScCE/59, in Winnipeg, on September 2.

Mary Ann Donna Kanchier, NE(TS)/60, to Donald Raphael Wall, BArch/58, in Winnipeg, on September 2.

Dorothy Silverthorn to Ronald Triffo, BScCE/61, in Winnipeg, on September 2.

Judith Gwyn Prescott, BA/58, to Peter Alfred Flynn, BA/60, in Winnipeg, on September 2.

Audrey Florence Remenda, BA/60, to Frank Sojonky, in Winnipeg, on September 9.

Sheila Reid, BA/61, to Philip Bleeks, in London, Ontario, on September 9.

Barbara Thomas, BAHons/58, to Dr. Gordon Warne, in London, Ontario, on September 16.

Earlier marriages not previously reported:

Shirley Anne Musk, BScHE/60, to Barry Douglas Collins, in Prince Albert, Saskatchewan, on May 25, 1961.

Barbara Ann Mills, BSc/57, to Barry B. Bannatyne, BScHons/55 MSc/59, in Winnipeg, on May 20, 1961.

Inge Nimb to Richard George Page, BAHons/55, in Toronto, on May 13, 1961.

Mrs. Myrtle Stewart Calden to Dr. James Skaling, MD/21, on April 15, 1961.

Mary Hope McInnis, BScHE/55, to Robert Scott Cunningham, in Long Beach, Mississippi, on February 11, 1961.

Marilyn Jean Stephenson, BScHE/60, to Carl Everett Anderson, BScGE/61, in Winnipeg, on December 16, 1960.

Donna Ann Hackman, NE(PH)/60, to Leif A. Sunde, in Winnipeg, on November 12, 1960.

Nancy Sandra Finkleman, BID/60, to Dr. Murray William Hollenberg, MD/60 BScMED/60, in Winnipeg, on October 30, 1960.

Helen Elizabeth Foster, BScHE/60, to Alan Andrew Borger, BScCE/59, in Winnipeg, on July 2, 1960.

Laura Constance Hanbury, BA/49 BPed/53, to Michael Gonzales, in Vancouver, in May, 1957.

ON THE MOVE?

If you are about to change your address or have just done so, would you please fill in the coupon and mail it to the Alumni Office, University of Manitoba, Winnipeg.

Name.....Degree/Year.....

Previous Address.....

New Address.....

Business Address.....

Occupation.....

(If your move involves a promotion, a new job, we'd appreciate a note for a news item in the Alumni Journal.)

Branch and Faculty Organizations

THE State of Minnesota has now joined the growing list of branches of the Alumni Association. The Twin Cities of Minneapolis and St. Paul provide the centre and a great part of the membership of the branch, which was formed at a dinner meeting at the Campus Club, University of Minnesota, on September 21.

The Alumni Office records show about 70 persons living in and about the Twin Cities. Nearly 50 people attended the dinner, one of them a visitor from Crookston (Diedrich Reimer, BSA/50, MSc and PhD (Minn.)). Earliest graduate present was the Rev. A. L. Murray, of Minneapolis, a Bachelor of Arts graduate of 1902, who spoke of his memories and attachments to the University and threw an inspiring challenge to all present.

The meeting was arranged by Fred A. Freedman, BA/27, LLB/31, with the help of Mrs. Freedman, a Minnesota graduate. The principal speaker of the evening was the Chancellor, Mr. Justice Samuel Freedman (brother of the chairman). The Chancellor's address was preceded by a showing of colored slides of campus scenes by John Gordon, executive director of the Alumni Association. The Chancellor was accompanied by Mrs. Freedman. Mrs.

The Chancellor of the University of Manitoba made three addresses within a two-day visit to the Twin Cities. Below, Mr. Justice Freedman receives a pipe of peace from Harold O. Lindberg, Potentate, Osman Temple, after speaking at a Shrine Booster luncheon in St. Paul.

Gordon also came from Winnipeg to attend the dinner with Mr. Gordon.

The chairman called on the meeting for a discussion as to whether those present felt it was desirable to form a branch of the association. There was immediate and unanimous agreement on this point. An organizing committee of three was then named: Fred Freedman, Mrs. Raymond Wenz, Minneapolis, BScHE/52, and Dr. William Rempel, Rosemount, BSA/44.

THE Chancellor, who also spoke at two other events in the Twin Cities the next day (see The University, page 24), spoke to the graduates of a double loyalty. Here are some brief excerpts from his address:

"Viscount Simon, referring to Oxford University and to his days there, spoke of it as 'a storehouse of memory, a focus of our earliest and warmest friendships.' Well may you and I apply those words to our own University of Manitoba and to our experience there . . .

"I call upon you for the expression of a double loyalty: to the University of Manitoba on the one hand, your own Alma Mater, and secondly to all Universities wherever they may be. As University Graduates, you should have a special appreciation of the role of the University in transmitting the intellectual heritage of the past so as to give it meaning in the light of the challenges of the present . . .

"I would regard my visit here as amply rewarded if you would undertake the formation of an Alumni branch of the University of Manitoba for the Twin Cities area. In that way, your interest in the cause which the University serves could be more effectively and continuously expressed."

GRADUATES present included:

From St. Paul—Robert F. Ackerman, Leonard W. Anderson, Dr. Edwin Bass, Mrs. D. M. Duncan, L. Downing, Dr. Gerald J. Goldenberg, Mrs. Ray (Molly) Kaplan, F. B. Kirkwood, Dr. John A. McNeill.

Minneapolis—Rev. Lorne H. Belden, Dr. David Brown and Mrs. Brown, Mrs. William Brown (Joan Conner), Miss Irene Fahey, Dr. Velvel Green, Douglas G. Maxwell, Walter W. McDonald, Edwin C. Nunn, Harold M. Solstad, John Nipper.

Excelsior—Ward Watson, Mrs. Douglas Nelson.

In Port of Spain and in London—

ALUMNI in two widely separated parts of the world may be meeting with visitors from the University within the next few weeks.

At writing, plans are being made for a meeting on the evening of Friday, October 27, in Port-of-Spain, Trinidad, and letters have gone out to graduates on the Island announcing this. Lindley Abdulah, BA/61, will be visiting Trinidad, will take along a program of slides to illustrate his report on developments at the University, and hopes

to discuss with the alumni the desirability of forming a Trinidad branch.

Just before Christmas, a visit will be paid to London, England, by Professor G. L. Brodersen, assistant dean of Arts and Science, and by Peter Flynn, BA/60, and Mrs. Flynn (Judy Prescott), BA/58. All three would be happy to meet with Manitoba graduates in London and it is hoped that a meeting can be arranged for the evening of Sunday, December 17 (Manitoba grads in London—watch for further word).

Branches and Alumni Contacts

Through the Years . . .

. . . with the Graduates

'09 Dr. Donald F. McIntyre, MD/09, an honor graduate of the 1909 class of the University of Manitoba Faculty of Medicine and a lecturer in surgery from 1922 to 1945 at the University, was recently presented with a senior life membership of the Canadian Medical Association for his "contribution to medicine, community and country."

'13 Major M. H. Garton, BA/13, Winnipeg magistrate, has been elected chairman of the board of governors of the Canadian Corps of Commissionnaires, Manitoba division, for the seventh successive year.

'18 Mrs. E. W. Gerry (nee Winnifred Black, BA/18), of Winnipeg, was appointed a senior officer of the National Employment Service in Winnipeg. She becomes regional special services officer and will supervise work carried on by the NES with provincial rehabilitation organizations and other groups.

'20 Dr. Malcolm R. MacCharles, MD, CM/20, a Manitoba Clinic surgeon and a former Medical College professor, was named president-elect of the Canadian Medical association at the CMA convention held recently in Montreal. He assumes office next year.

'21 A. S. Williams, BScEE/21, has been elected to the executive of the Electrical section, M.E.I.C., for the 1961-62 year. Other members include: **T. L. Woodhall, BScEE/30**, vice-chairman; **D. E. Haig, BScEE/44**, executive member; **T. J. Erskine BScEE/49**, executive member.

'22 W. Elliott Wilson, LLB/22, Manitoba's deputy minister of labor, was recently elected president of the Canadian Association of Administrators of Labor Legislation. **Ralph C. Pybus, BScCE/22, BArch/24**, recently retired as president of the Commonwealth Construction Company, has been elected chairman of the Greater Vancouver Metropolitan Industrial Development Commission.

'23 Hon. Errick Willis, LLB/23, Lieutenant-Governor of Manitoba, was recently presented with an honorary life membership in the Canadian Bar association.

'24 Sidney Halter, BA/24, LLB/27, president of the Amateur Athletic Union of Canada, was recently awarded a

Golden Boy by the Manitoba Travel and Convention Association for outstanding contributions to the province of Manitoba. Also honored by a presentation was **Dr. H. S. Atkinson, MD/25**, Superintendent of the Manitoba School for Mentally Defective Persons since its founding in 1933.

'25 Senator G. S. Thorvaldson, LLB /25, of Winnipeg, headed a delegation of four senators and eleven Commons members which represented Canada at the annual conference of the Inter-Parliamentary Union in Brussels September 14-22. **Louis Driscoll, BA/25, CA/30**, of Winnipeg, formerly comptroller of United Grain Growers Limited, Winnipeg, has been appointed general manager of the company.

'26 Hugh L. Robson, BA/26, LLB/29, former Winnipegger and senior assistant secretary-treasurer of the Canadian Bankers' Association, has been named secretary-treasurer of the association. **R. C. Brown, BSA/26**, and Mrs. Brown of Winnipeg, recently travelled overseas to London where Mr. Brown attended the International Federation of Agricultural Producers Conference.

'27 H. Byron Gourley, BA/27, with Mrs. Gourley and niece, sailed from Montreal bound for Liverpool via Greenock, Scotland, this month. The Gourleys plan a leisurely holiday through the British Isles. **Dr. Norman O. Stein, BSc/27**, executive assistant to the vice-president of Olin Mathieson Chemical Corporation, has been transferred from Baltimore to New York. **Ernest Arthur Ford, BScCE/27**, was elected president of the Canadian Institute of Steel Construction, Inc., at the annual meeting held recently.

'28 Mrs. David Milliken (nee Lorene Frances Ritz, BA/28), the author of five chapbooks of poetry and of two collections of prose and poetry, has published a new novel "The Secret of the Red Coat." **Harvey E. Handford, BAHons/28**, of Des Moines, Iowa, has been named second vice-president of Bankers Life Company, Des Moines.

'29 Salomea Tretiak, BA/29, after four years with the World Health Organization in South East Asia—Rangoon, New Delhi and Colombo—in nursing education programs, has accepted the position of assistant professor at the School of Nursing,

University of Alberta, Edmonton. **Sol Kanee**, BA/29, of Winnipeg, was recently elected a vice-president of the Royal Winnipeg Ballet. Also elected to the ballet executive were: **Mrs. W. L. Morton** (nee Margaret Orde, BA/31), vice-president and **William E. Ireland**, BA/55, LLB/59, honorary solicitor. **Robert MacDonald Hardy**, BScCE/29, DSc/57, consulting engineer and formerly dean of the Faculty of Engineering at the University of Alberta, Edmonton, was presented with an honorary membership in the Engineering Institute of Canada dur-

ing the Honors and Awards luncheon held June 1. **Roland Couture**, BA/29, of Winnipeg, is one of 38 members of Manitoba's "Committee on Manitoba's Economic Future," formed by the Provincial Government and charged with finding 40,000 jobs for Manitoba workers by 1970. The committee will complete a major research assignment in every field of economic activity and will try to complete the research program by 1963. Other graduates on the committee are: **Professor J. C. Gilson**, BSA/50, MSc/52, of the University of Manitoba; **Ron D. Turner**, BA/35, LLB/39, of TransAir Limited, Winnipeg; and **Richard Noonan**, BScEE/33, of Pioneer Electric Limited.

'30 Saskatchewan Premier **T. C. Douglas**, BA/30 (Brandon), MA/33 (McMaster), LLD/61, was named leader of the New Party at the founding convention held in Ottawa. **Anna Speers**, BScHE/30, president of R. James Speers Corporation Limited, managers and livestock dealers, is the only woman on the 25-member National Productivity Council, a council which is trying to solve Canada's production problems. **William D. Hurst**, BScCE/30, Winnipeg city engineer, has been awarded the American Public Works Association Samuel A. Greeley service award at the 1961 Public Works Congress and Equipment show held in Minneapolis. The award commemorates 30 or more years of service in the public works field.

'31 **Donald M. Stephens**, BScCE/31, chairman of Manitoba Hydro, was recently elected to the board of directors of the Canadian Electrical association.

'33 **Leonard Remis**, BA/33, of Remis Signs Limited, has been elected president of the Young Men's Hebrew association in Winnipeg. **Edward W. Pope**, BA/33, CA/38, of McCabe Grain Company, Winnipeg, immediate past president of the Alumni Association, has been re-elected a councillor of the rural municipality of Victoria Beach for 1962 and 1963. **Air Commodore H. H. C. Rutledge**, BScCE/33, OBE, CD, chief of training, RCAF headquarters, Ottawa, has retired from his post in the RCAF and is now on staff at the Ottawa Collegiate Institute. **C. E. Atchison**, BA/33, executive vice-president of Investors Syndicate of Canada, Limited, has been elected a director of the company.

'34 **John M. Robinson**, BA/34, LLB/38, has been appointed a vice-president of the National Trust Company. **Dr. T. J. Oleson**, BA/34, MA/36, University of Manitoba history professor, received an Amer-

DID YOU FORGET SOMETHING?

A number of spare Brown and Golds of recent years are still in stock in the Student Union Offices and are offered for sale. They are for the years 1952, 1953, 1954, 1957, 1958 and 1960. If you graduated in one of those years and forgot, in the excitement, to pick up a Brown and Gold to reminisce over in the years to come, here's your chance. If you wish to order one, just drop a note to the Alumni Office, naming your year and enclosing four dollars. We'll see that one is sent to you.
